

MOTOMAN ArcSystem

2x HSD-500 SDM

- Designed for operator ease of use
- Unobstructed view of the robot cell
- Complete safety kit

Designed for the arc welding with separate work flows, e.g. objects that require different fixtures. The single arc welding robot and the two positioners on each side makes it a small and efficient system.

The ArcSystem is built to a global standard that delivers savings in both time and money. It is based on a modular system of standard components that can meet the requirements of the general and automotive industry using a minimum of floor space.

Equipment	
Possible robots	MA1900 , HP20D
Robot stand	H = 800 mm
Positioner	2x HSD-500SDM, L = 2000 mm, max. payload 500 kg
Fume hood	L = 2200 mm
Safety kit	Safety fence, light guard, welding curtains, operator's panel
Welding equipment	<i>Not included. Must be quoted separately according to customer request.</i>

Options for positioner		
Controlled air	2 channels \varnothing 8 mm	
Signal transfer kit	<i>Direct air:</i> 1 channel direct air 3/8"	<i>Signal transfer choice:</i> 12 channels (BUS) 12 or 24 active channels
Controlled air + Signal transfer kit	<i>Controlled air:</i> 2 channels \varnothing 8 mm	<i>Signal transfer choice:</i> 12 channels (BUS) 12 or 24 active channels
Fixture mount	Brackets, for head- and tailstock
