

# MOTOMAN ArcSystem

## VMF-500 S5D

- Designed for operator ease of use
- Unobstructed view of the robot cell
- Complete safety kit

Designed for arc welding workpieces where a high freedom of positioning is required. The single high speed arc welding robot and the two-station positioner makes it a small and efficient system.

The ArcSystem is built to a global standard that delivers savings in both time and money. It is based on a modular system of standard components that can meet the requirements of the general and automotive industry using a minimum of floor space.

Equipment	
Possible robots	MA1900, HP20D
Robot stand	H = 1200 mm
Positioner	VMF-500S5D, L = 1500—2050 mm
Fume hood	L = 2200 mm
Safety kit	Safety fence, light guard, welding curtains, operator's panel
Welding equipment	<i>Not included. Must be quoted separately according to customer request.</i>

Options for positioner	
Direct air	1 channel 3/8" or 2 channels 1/4"
Controlled air	2 channels 1/4"
Signal transfer kit	12 channels (BUS) 12 or 24 active channels
Fixture mount	Brackets
